

12V24V Wired Smoke Detector, Wired Smoke Detection Photoelectric

BC-820A

Specifications

S4A Model No.	BC-820A	Working temperature	-10℃ ~ +50℃
Working voltage	DC9V-35V	Working humidity	<=95%RH
Quiescent current	<=2mA	Alarm mode	network output / LED indicator alarm
Alarm current	<=10mA	Alarm output	relay output (normally open, normally closed optional)

1. Using microprocessor control
2. Automatic reset/power-off reset optional
3. Infrared photoelectric sensor
4. Network output N.C. / N.O. optional
5. LED indication alarm
6. Metal shield, anti-electromagnetic interference
7. Strong environmental adaptability
8. SMT process manufacturing, strong stability
9. Dust-proof, insect-proof, anti-white light interference design
